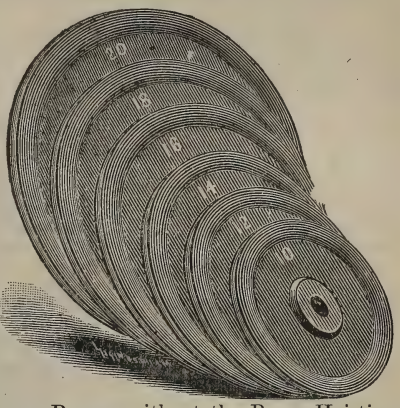
We can confidently state that our machines are the best in the market, and would refer you to the testimony of those who have them in use.

# DOBBIE & STUART,



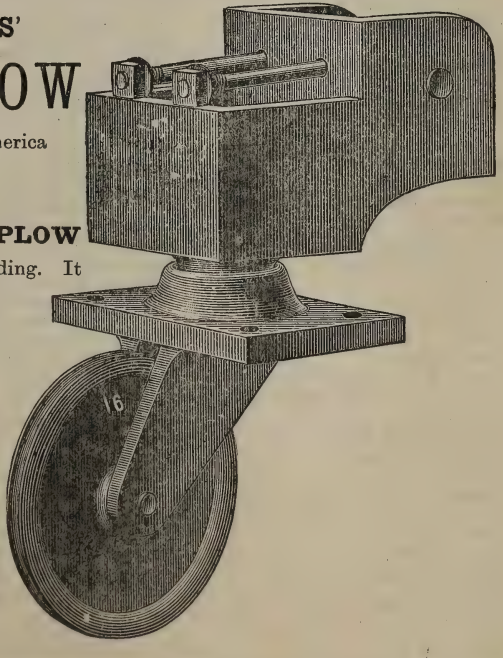
## THOROLD IRON AND BRASS FOUNDRY AN MACHINE WORKS,

MANUFACTURERS OF A FULL LINE OF

# Contractors' Plant

SUCH AS

**DERRICK HORSE-POWERS,**
**DERRICK CASTINGS,**
**PLOWS, SCRAPERS, Etc., Etc.**



We beg to present to Contractors, Quarrymen and Builders a patented Horse-Power with Boom Hoisting Attachment, a powerful machine, far surpassing anything of the kind in the market. With this machine a horse can raise eight or ten tons, and the boom operated at the same time. For Building purposes it has no equal. We also manufacture Single Drum Powers without the Boom Hoisting attachment. They are the smallest, neatest, cheapest, easiest handled, most durable and lightest working machines ever brought before the public. Write for particulars.

**OUR CONTRACTORS'**

# ROOTER PLOW

Is acknowledged throughout America to be the

**STRONGEST, BEST and CHEAPEST PLOW**

In use for Canal and Railroad grading. It has been used for several years, and has frequently been tested by 8 or 10 large horses in stiff clay, hard pan, cemented gravel and shell rock.

*Correspondence Solicited.*

## THOROLD, - - ONTARIO.

The object of machinery is to lessen manual labor; and in the invention of our machines we claim to aid the Contractor largely in that respect.

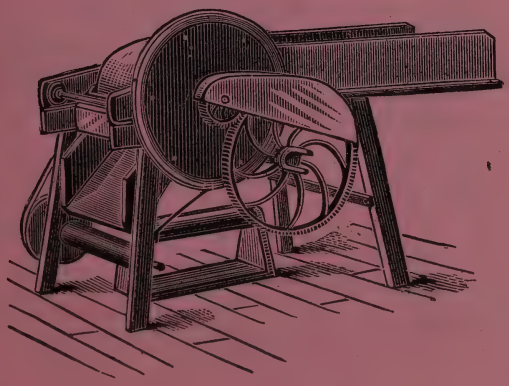
# BATTY'S

# RIPPER FEED CUTTER.

SECURED —BY— LETTERS PATENT.



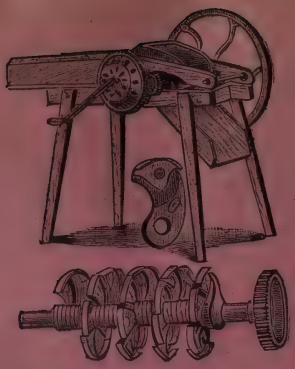
AS ARRANGED TO RUN WITH A BELT.

TERRITORY FOR SALE.

**The Ripper runs quietly at threshing machine speed and by its NOVEL CUTTING DEVICE thoroughly disintergrates corn fodder so that animals eat it up clean, preferring it to hay, thus more than doubling its feeding value, converting it into good manure and saving the TROUBLE of getting the LONG STALKS out of the manure in the spring.**

FOR FURTHER PARTICULARS, DISCOUNTS TO THE TRADE, &c., &c.,

ADDRESS



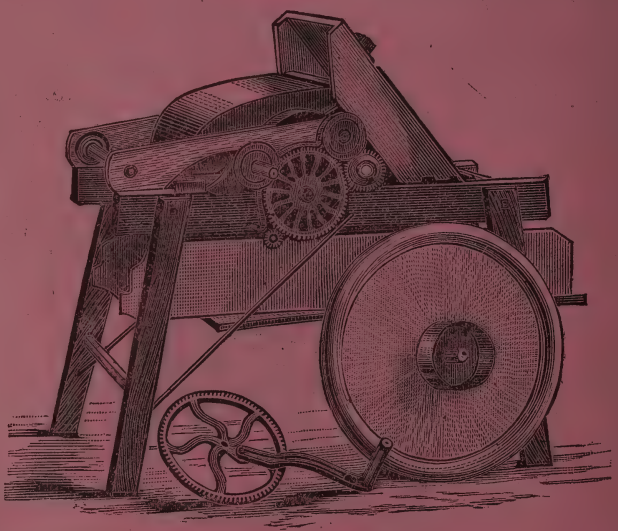
L. M. BATTY,

438 TALBOT STREET,

ST. THOMAS, ONTARIO.

**THE RIPPER as arranged to run by a TUMBLING ROD attached to either side of the Machine, showing also two different positions of the roller for running a Carrier to deliver the cut feed IN FRONT, IN REAR or SIDEWAYS.**

[OVER.]



SMALL SIZE FOR HAND POWER ONLY.

The Cylinder consists of narrow spirally arranged blades, (variously constructed) which like saw teeth are quickly and easily sharpened with a file, or small emery wheel attachment made especially for the purpose.

**THE RIPPER** has steel shafts and is strong and durably made. It makes a clean cut on STRAW, HAY, SHEAF, OATS, &c., and has no superior for that purpose. Small vegetables may be run through, tops and all, and a CHEAP ROOT CUTTING DEVICE can be furnished as an extra.

THE FLY WHEEL AND BELT PULLEY are attached by a simple friction device by which all the working parts of the machine will stop instantly should any heavy hard substance get caught in the knives. A new improvement in the feed rolls obviates all choking and clogging.

THE RIPPER AS TAKEN DOWN FOR TRANSPORTATION IN ONE MINUTE.

MANUFACTURED BY **L. M. BATTY,**

(OVER) 438 TALBOT STREET, ST. THOMAS, ONT.

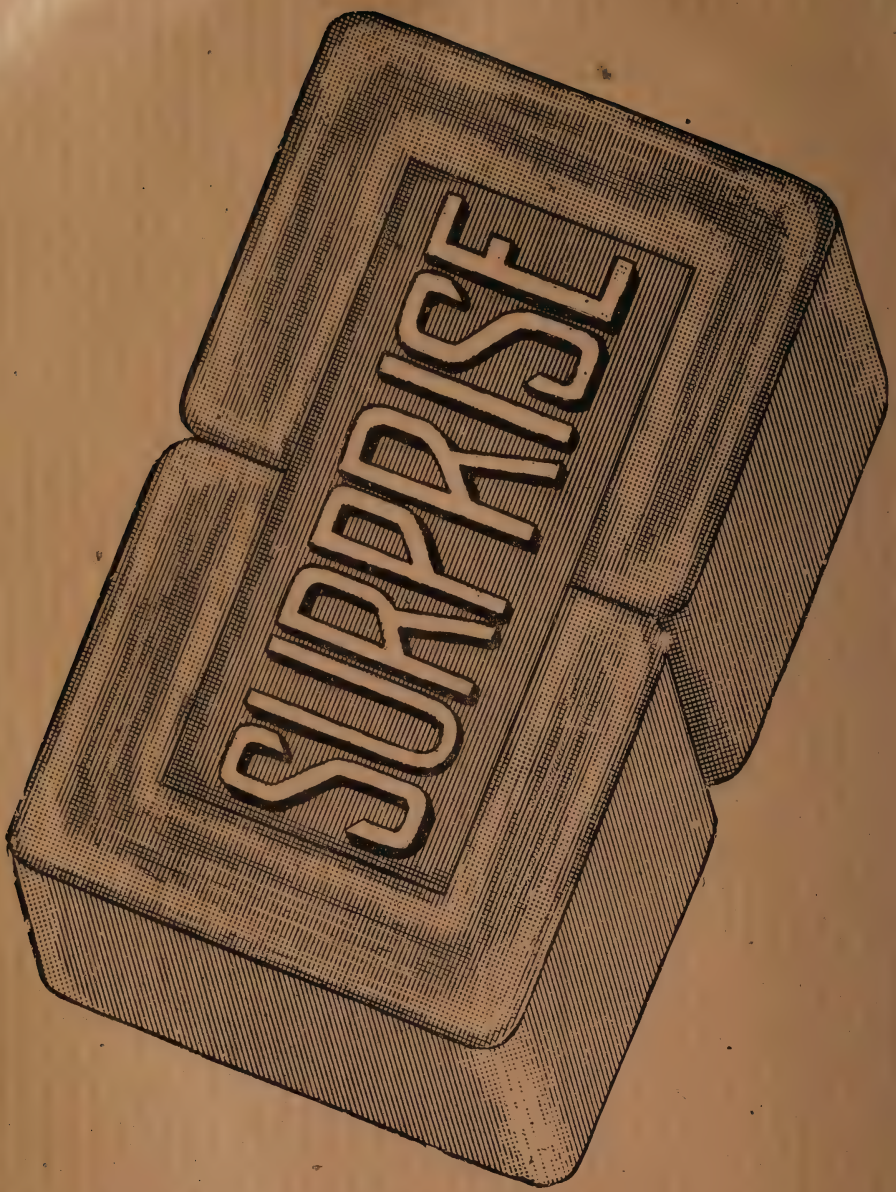
# GROCERS.

## A FEW FACTS

For both Wholesaler and Retailer. Do you know that a first class article's best advertisement is its own merit? It is. So with the Grocer, his best advertisement is that he keeps nothing but first-class Goods. The wholesaler supplies the goods to the retailer. The retailer sells them knowing they are the best of the kind. The customer buys, knowing what he or she gets is all it is claimed to be. Everyone is satisfied. Satisfaction to your customers means a continuation of business with them. These are facts. Now for a practical application.

## SURPRISE

Is a pure Laundry Soap, free from all injurious chemicals, made from the purest stock, guaranteed to give satisfaction, and is all it is claimed to be in every respect. By a system of prices profit is given to all handling SURPRISE.



## PROFIT

Quick sales, a fair margin of profits and satisfaction to all concerned is what everyone is looking for. SURPRISE fills the bill. SURPRISE is largely advertised, is a very fine article, and will sell on its merits alone. All wholesale dealers are protected by our system of prices which always gives them a good profit, which profit we can practically guarantee. The retailer buys at a price which gives him a good profit and still sells SURPRISE as cheap as common soaps to the consumer, who profits by getting a first-class article.

We do all the advertising and pushing. You sell the SURPRISE, making a good profit, guaranteeing it to your customers as we do to you.

Do you keep SURPRISE in stock? If not we shall be pleased to quote prices on application.

# HERBAGEUM

(REGISTERED)

## A GOOD INVESTMENT.

**Fed Regularly Insures from 30 to 40 per cent. Profit.**

## USE HERBAGEUM

If you want healthy, vigorous horses.
And healthy, vigorous mares and colts.
And healthy, vigorous cows and calves.
And more, richer and purer milk.
And to make money raising calves.
And to make money raising pigs.
Use it when feeding fresh whey and skim milk.
And to fatten geese, ducks and turkeys.
To profitably use with straw, roots and coarse grains.
Use with linseed meal and oil cake.
To increase the yield of eggs.
To strengthen animals against disease.
To relieve from lice, scours and cloying.
To prevent hog cholera and Texas fever.
To relieve animals in epizootic, colds and coughs.

For proof, ask for the reports from merchants who sell HERBAGEUM, and test it as directed. Gauged by its efficiency, price and small feeds, HERBAGEUM is the best and cheapest animal spice ever sold.

NOTE.—Only 9c. per week for horse or cow; hog, 5c.; calf, 3c. PRICE, PER ONE HUNDRED POUNDS, **$12.** It will return in increase of milk, butter, flesh or eggs from $16 to $17. Horsemen will find that it will save that amount in other feed and also keep the animal in better condition.

HERBAGEUM gives strength and tone to the digestive organs, and when fed with linseed—linseed meal or oil-cake—there are better results from the feed used and less tendency to off-flavor, either in dairying or fattening. HERBAGEUM successfully fills the place of the short and creeping herbage which is natural to grazing animals, but which hay and grain fail to furnish. This short, low-lying and creeping herbage, or something to replace it in an efficient manner, is as necessary to the animal economy as proper fertilizers are to the economy of plants, and the man who thinks hay and oats are good enough for his stock has hardly looked at the question from nature's standpoint. Nature is inexorable, and failure to obey her laws sooner or later is attended with loss. HERBAGEUM works on the same lines and in harmony with nature and is profitable. ONE HUNDRED POUNDS COSTS **$12,** and will return in increased milk, butter or flesh, from $16 to $17, when fed judiciously as directed.

NOTE.—Four pounds of Herbageum is enough for a cow or a horse for six weeks, and will go farther and do more good than from 15 to 25 lbs. of the low price condiments, hence it is really the most economical.

Make a fair and honest test with HERBAGEUM for six weeks, and you will be satisfied it pays to use it. It contains neither Antimony, Arsenic, Saltpetren or Resin. It is the GREAT HERB SUBSTITUTE.
